The News.

Both Houses of Congress are busy discussing Fillbusterism, and the Southern Democrats, with few exceptions, take issue with the Administration on this point.

A later arrival from California brings over a million and a half in gold, and the promise of much more to come. The autumnal rains bud been abundant and mining was prosperous. The New York Produce Market is steady, with a moderate export demand for Wheat and Flour.

Money is very abundant in N. Y. and stocks are rising under the influence of this accumulation. Both brauches of our Legislature are organized and at work. The Governor's Message will be sent in to day and laid before our readers in our

advance copies of his first Annual Message were furnished yestorday to all the City papers, but with injunctions not to publish it, till advised by telegraph that it had been communicated to the Logislature. As the Message was not sout in yesterday, we are obliged to withhold it until our next issue. It is a long, able and interesting document, and will, we venture to say, command the carnest attention and general approval of the People. The Legislature.

Both branches of the Legislature completed their organization yesterday. The Sonato chose Mr. J V. L. Thomas, of Rock, Chief Clerk - a good choice and a fitting compliment to our bannor Republican County. In the Assembly, Mr. L. H. D. CRANK of Iowa, the Republican nominee. was elected Chief Clerk. No important business was transacted in either House. Two Legislatures in Kansos.

Affairs in Kansus are getting to be more mixed than over. The Torritorial Locislature having met at Lecempton on the 4th, adjourned to Lawrence, and has received a message from acting Governor Denver. On the 4th, also, the Toreka Legislature assembled at Topoka, listened to a message from Gov. Rebinson, and then also adjourned to Lawrence. We await, with no little cariosity, the luture action of these two Legislative bodies. The Aministration sustains the one, and the People of Kausas the other. It is. we suppose, in cuties harmony with "democratio" professions of regard for "Popular Soveroignty," to see our National Domocratic Administration support the Lecompton swindle and innore the Topeka Constitution.

Science.-We learn that on Monday morning last, Mr. Christian Konkle, of the town of Elba, in this County, committed suicide by hanging himself in his own granner, with a rope. There is no knowing what luduced him to commit the rash act, though it is said that since he lost his wife, about a year ago, he has been subject to fits of melanobody, bordering at times on mental insanity. It is presumed that he was laboring under one of those fits when he committed the ander one of those fits when he committed the act. Mr. Russell's Disappragrance.—Many rumors are rile concerning Mr. Wm. II. Russell. It is very currently reported that a dispatch had been received from Mr. A. The Lendon Times concludes a long article on the Indian matiny, as follows:

At least the country is delivery from all anxiety, on the subject. The Indian matiny is now at an end. On all sides we hear of nothing but the defeat and dispersion of the rebels. Nuscocrabed, in the isolated British district of Ajmeer, has been relieved by Brigadier Steuart, in command of the Malwa field force, the enemy from the seathern districts about Nesmuch and Mundesore have been dispersed, and Malwa is being cleared.

seathern districts about Neemuch and Muscasse have been dispersed, and Maharis being cleared of insurgants. Thus we hope that the whole Maharata country will at once be reduced to tranquility. The Gwalior contingent has been stready beaten, and, though a part has penetrated to Onde, a large number of the men have probably dispersed to their homes. Legislative offices, and to "define their position" on the new Kansas issue. As there is a Republican majority in each House and no show for the aforesait "Democracy" to elect the officers, the competition for the empty honors of a nomination was not brisk, and the business was quickly concluded. But the "shricking for Kansas" occapied the caucus during the rest of the ovening and lod to high and long debate. At length, by way of "compromise," the caucus passed a series of resolutions, the first expressing "abiding confidence" in the Business question, and declar log time the policy advocated by him "is the only one enductated the current of the Christon Press that the Democrate Mombers of Legislature have passed caucius in the log time the policy advocated by him "is the only one enductated the overary out fully the principles of the Cincinnatti platform."

The captain being a man of an original turn of mind, says to the young lady, "Jump overboard, and marry the man who jumps after you." ROZZCH, Mass.

Inced nortaly anything to the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curstive powers, in releving all, and curing most of those diseases to which you are unfortunately so liable. That most exeruciating disease to an affectionate mother MOUTH,

is cured as if by a mirade; your own temper is restored to its natural sweetess, and your babe from short and freeful naps to caim and sweet slumbers; and the Medical Discovery becomes a fountain jof plexings to your husband and household.

In the mere advanced stages of

CANKER

it extends to the storage, easing

t extends to the stomach, ensuing DYSPEPSIA, which is nothing but canker on the stomach; then to the intestines and

KLDNEYS, creating a sinking, gone feeling, and a control to the cares of your family.

Your stomach is RAVV AND INFLAMED, your stomach is RAVV AND INFLAMED, your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonous field of the casks to up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes toose and flashy, and the fibres of your body become related. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to

URE: reating a sinking, gone feeling, and an indifference even of the cares of your family.

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-junit when you retire, irregularity of the bowels, and also, that most exoraciating of diseases the Pil ES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old provert, "An ounce of prevention is better than a nound of cure." In the MEDICAL DISCOVERY you have both the preventative and the cure, with this great and good quality; that it will never, under any circumstances, do you an injury. Four truly,
